### **Minutes:**

Ms. DeSalvo noted that CEQ staff had not yet completed the CEQ minutes from the April 15, 2020 CEQ Meeting. Mr. Corral also explained to the CEQ that the Governor's Executive Order and the changes to the Open Meeting Law requires that verbatim transcripts of the meeting be completed and for that reason the minutes are taking longer than normal to complete but that the CEQ staff is working to get the minutes done as quickly as possible.

### **Correspondence:**

Mr. Corral stated that the CEQ Agenda notes that correspondence can be sent in to the general Planning email address and that two letters addressed to the CEQ were received yesterday (May 19, 2020). Mr. Corral noted that one correspondence from the Village of Islandia and one from the attorney for the applicant of Pal-O-Mine Equestrian Inc. that were addressed to the CEQ were received. Mr. Corral noted that both of these correspondence were forwarded on to the CEQ members.

### **Public Portion:**

Mr. Gulbransen noted that he understands that there are two requests to speak: Attorney Snead and Attorney Prokop. Mr. Gulbransen asked if there are any other requests to speak. There were no other requests made by the public to speak.

Mr. Gulbransen asked the CEQ whether the CEQ wishes to have the public portion during the project discussion portion of meeting or now during the public portion. It was decided to have the public portion during the Agricultural District portion of agenda.

Legislator Krupski requested a refresher on Ag and Market's law and the CEQ's role in the review process. Mr. Gulbransen noted that CEQ member, Rob Carpenter is going to give a presentation to refresh us the CEQ on the Ag and Market Law.

Mr. Carpenter noted that he has a PowerPoint to present and also asked if the two page document on Agricultural Districts and the SEQRA process be shared with the CEQ members.

### **Historic Trust Docket:**

Director's Report:

Updates on Housing Program for Historic Trust Sites

Mr. Martin noted that there is currently one housing vacancy. Mr. Martin noted that the care takers house is at West Hills County Park which is being appraised and then will be advertised when the Park can again fully reopen. Mr. Martin noted that there are no security concerns with not having this unit rented but that the Parks Department will work to get this unit rented again as soon as possible.

Updates on Historic Trust Custodial Agreements

Mr. Martin noted that IR 1371-2020, which is on today's LADS report, regards authorizing the use of Coindre Hall at West Neck Farm County Park by Huntington Lighthouse Preservation Society, Inc. Mr. Martin provided some background on this agreement and noted that he was available to answer any questions. Mr. Martin also noted that the Suffolk County Parks Department is supportive of this agreement.

### **Project Review:**

#### **Recommended Type I:**

- A. Feasibility Study of Seaweed (Sugar Kelp) Cultivation for Bioextraction of Nutrients in the Peconic Estuary

In a presentation by Michael Doall, with Stony Brook University's School of Marine and Atmospheric Science, it was explained that the proposed project involves a feasibility study to test the viability of seaweed (Sugar Kelp) cultivation for bioextraction in five Peconic Estuary locations. The study will analyze Sugar Kelp's ability to extract nutrients from the estuary including the nutrient Nitrogen, which when found at excess levels in an estuary leads to low Dissolved Oxygen and reduced light transmission which impacts aquatic organisms including shellfish. At each site, the Sugar Kelp will be grown on three 100 ft long lines and it is anticipated that the lines will be installed in November and removed in June.

It was also noted that for each year of the two year study, each study location will be at an active Suffolk County Shellfish Aquaculture Lease Program site and will be determined in coordination with the Suffolk County Department of Economic Development and Planning.

It was also discussed that the Suffolk County Shellfish Aquaculture Lease Program in Peconic Bay and Gardiners Bay was subject to a Generic Environmental Impact

Statement (GEIS) in which Suffolk County as Lead Agency adopted a Findings Statement on December 15, 2008. Furthermore, pursuant to SEQRA regulations, because the GEIS for the Shellfish Aquaculture Lease Program in Peconic Bay and Gardiners Bay did not specifically address this type of use on the aquaculture lease sites, the referenced Full Environmental Assessment Form (EAF) has been prepared to enable the additional required SEQRA review for this proposed action. It was noted that the GEIS also established limits to where sites can be located in the Peconic Bay and worked to avoid environmentally sensitive areas of the Peconic Bay and areas that have a high likely hood of user conflicts and may result in navigational hazards.

At this May 20, 2020 meeting, the CEQ recommended that the above referenced EAF be amended to include that the proposed project will also require United States Army Corps of Engineers approvals.

Mr. Kaufman made a motion to recommend the classification of the proposed project as a Type I Action with a Negative Declaration. The motion included that the Feasibility study will carefully examine the safety and competing uses in the Peconic Estuary. The motion also included that the referenced EAF be amended to include that the proposed project will also require United States Army Corps of Engineers approvals. The motion was seconded by Mr. DeRubeis. Motion carried. Mr. Swanson recused.

### **Project Review:**

- A. Proposed Inclusion of the Below Listed Properties into an Existing Certified Agricultural District Pursuant to New York State Agriculture and Markets Law Section 303-b

Prior to the specific review of the individual applications Robert Carpenter, CEQ Member and Executive Director of the Long Island Farm Bureau, provided a brief overview PowerPoint of the Agricultural Districts program. As part of Mr. Carpenter's presentation it was noted that the premise on the Agriculture District program is to provide protection against unreasonable local municipality restrictions or regulations of farm operations unless the public health or safety is impacted. It was noted that this does not mean that the agricultural operations are not still bound by local zoning or building codes it only provides protections against unreasonable restrictions against normal farming practices.

After the overview presentation provided by Mr. Carpenter, August Ruckdeschel, Farmland and Open Space Administrator, Suffolk County Department of Economic Development and Planning, provided a presentation to the CEQ on each of the different proposed agricultural district applications. Mr. Ruckdeschel noted that for the below agricultural districts applications, that pursuant to NYS Agricultural Markets Law Section 303-b, the Suffolk County Agricultural and Farmland Protection Board, as part of its annual review process, reviewed the above referenced properties.
